

Art Curriculum Map

Art Intent: Our ambition at Woodside is to promote interest in and a desire to learn about Art. We want our children to become their own 'artists', develop their creativity and individualism whilst learning about and taking inspiration from some of the 'greats' both from the past and present. Our children will be provided with opportunities to develop ideas, practise skills and master techniques in drawing, painting and sculpting using a variety of media and materials. As well as this, our children will be able to reflect upon both their own and others work and discuss the effectiveness of this in a constructive manner.

	Autumn Drawing	Spring Painting	Summer Sculpture
Year 1	Buildings	Colour and Painting Techniques	Can Buildings Speak? – Homes
